78.30.00

Komprimeter zur Erzeugung von Blutleere in den Extremitäten, bestehend aus:
1 Manometer verchromt mit Schlauch,
gehärtete Kupfer-Beryllium Membrane und Skala bis 700 mm Hg Nr. 78.30.05
1 Pumpe verchromt Nr. 78.30.04
2 abwaschbare Manschetten mit Schlauch in den Größen 57 × 9 cm (Oberarmmanschette) Nr. 78.30.01
und 96 × 12,5 cm (Oberschenkelmanschette) Nr. 78.30.02

Comprimeter to avascularize the extremities, consisting of:
1 Manometer chrome-plated with tube,
tempered copper-beryllium membrane and scale up to 700 mm Hg No. 78.30.05
1 Pump chrome-plated No. 78.30.04
2 washable cuffs with tube sized 57 × 9 cm (upper arm cuff) No. 78.30.01
and 96 × 12,5 cm (thigh cuff) No. 78.30.02

Comprímetro para producir el vacío de sangre en los miembros, compuesto de:
1 manómetro cromado con manguera,
membrana endurecida de cobre-berilio y escala hasta 700 mm Hg No. 78.30.05
1 bomba cromada No. 78.30.04
2 brazaletes lavables con manguera en los tamaños 57 × 9 cm (brazalete brazo) No. 78.30.01 y
96 × 12,5 cm (brazalete muslo) No. 78.30.02

Comprimètre permettant d'arrêter la circulation du sang dans les extrémités, se composant de:
1 manomètre chromé avec tuyau,
membrane en cuivre-béryllium trempé et échelle jusqu'à 700 mm Hg No. 78.30.05
1 pompe chromé No. 78.30.04
2 manchettes lavables avec tuyau dans les dimensions 57 × 9 cm (brassard) No. 78.30.01 et
96 × 12,5 cm (cuissard) No. 78.30.02

Comprimetro di alta precisione per creare vuoti di sangue nelle estremità, composto da:
1 manometro cromato con tubo,
membrana indurita di rame-berillio e scala graduata fino a 700 mm Hg No. 78.30.05
1 pompa cromata No. 78.30.04
2 bracciali lavabili con tubo lunghezza 57 × 9 cm (bracciale per braccio) No. 78.30.01 e
lunghezza 96 × 12,5 cm (bracciale per coscia) No. 78.30.02

Bei der Wahl der passenden Größe sind die individuellen anatomischen Verhältnisse des Patienten ausschlaggebend. Unsere Empfehlungen sind unverbindlich und dienen nur als Orientierungshilfe.

The decisive factor for choosing the correct size of blades is the anatomical proportion of the patient. Our recommendations are without any obligations and are only to be understood as orientation.

Para seleccionar el tamaño adecuado deben considerarse las proporciones anatómicas individuales del paciente. Nuestras recomendaciones son sin compromiso y se comprenden solamente como ayuda de orientación.

Afi n de choisir la taille appropriée, il faut respecter les relations anatomiques individuelles des patients. Nos recommandations sont sans obligation et ne servent que comme point de repère.

Per la scelta della grandezza appropriata, si devono rispettare le relazioni anatomiche individuali dei pazienti. Le nostre raccomandazioni sono di carattere informativo e servono solamente per un aiuto nell'orientamento.

Der Induktiv-Akku 45.48.56 (Seite 585) für Standardgriffe ist nur für den Betrieb der Xenonlampe 45.48.73 (3 V) geeignet.

The inductive accumulator 45.48.56 (page 585) for standard handles is only suitable for use with the xenon lamp 45.48.73 (3 V).

El acumulador inductivo 45.48.56 (página 585) para mangos estándares es apropiado
únicamente para el uso con la lámpara de xenón 45.48.73 (3 V).

L'accumulateur inductif 45.48.56 (page 585) pour manches standard n'est conçu que pour l'utilisation avec la lampe xénon 45.48.73 (3 V).

L'accumulatore induttivo 45.48.56 (pagina 585) per manici standard è adatto solamente all'utilizzo di lampadine xenon 45.48.73 (3 V).

Xenonlampen:
Xenon lamps:
Lámparas de xenón:
Lampes xénon:
Lampadine xenon:

Die Lichtleistung von Xenonlampen ist um ein mehrfaches höher als die einer Kryptonlampe. Ein weiterer Vorteil von Xenonlampen ist deren „weißes Licht", das von den Mund- und Rachenschleimhäuten weniger absorbiert wird und die Kontrastdarstellung verbessert.

The intensity of the light of xenon lamps is several times higher than that of krypton lamps. Another advantage of xenon lamps is their „white light", which reduces the light absorption of the mucosa and improves the contrast effect.

La potencia luminosa de las lámparas de xenón es mucho mayor que la de las lámparas de criptón. Otra de las ventajas de las lámparas de xenón es su „luz blanca" que es menos absorbida por las mucosa bucale y faringeal mejorando así la visualización de contrastes.

La puissance de lumière des lampes xénon est beaucoup plus grande que celle des lampes krypton. Un autre avantage des lampes xénon est leur „lumière blanche" qui est moins absorbée par la muqueuse buccale et par la muqueuse pharyngienne et mène donc à un graphique de contraste amélioré.

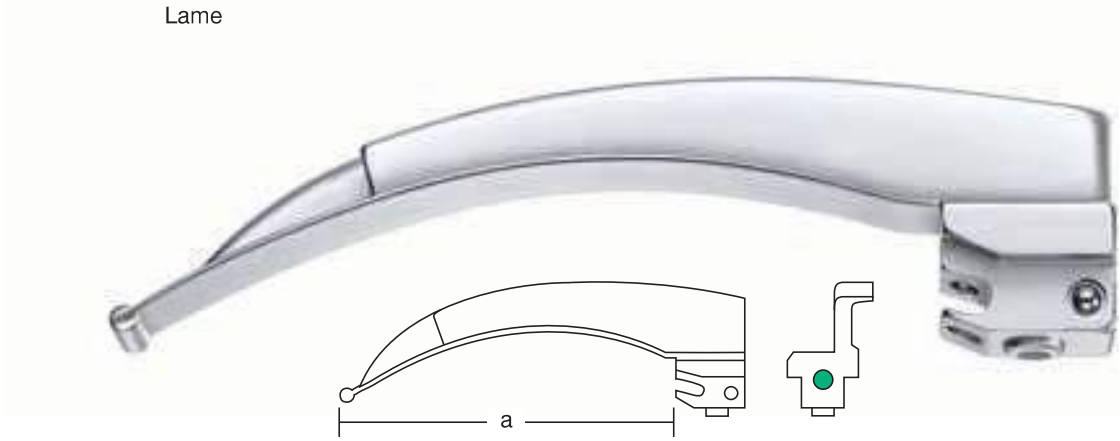

La potenza luminosa delle lampadine xenon è maggiore a quella di una lampadina
krypton. Un altro vantaggio della lampadina xenon è la „luce bianca", che viene meno assorbita dalla mucosa faringea e dalla mucosa orale e produce un contrasto migliore.

Hinweise
Indications
Indicaciones
Indications
Indicazioni

- Die Spatel sind autoklavierbar bis 134 °C (bei 3 bar Überdruck).
- Die Griffe sind ebenfalls autoklavierbar bis 134 °C (bei 3 bar Überdruck). Batterien, Batteriecontainer und Akku-Einsätze sind vor der Sterilisation aus den Griffen zu entnehmen.

- Blades are autoclavable up to 134 °C (at 3 bar overpressure).
- Handles are also autoclavable up to 134 °C (at 3 bar overpressure). Batteries, battery container and accumulator inserts must be removed from the handles prior to sterilsation.

- Las espátulas son autoclavables hasta 134 °C (a una sobrepresión de 3 bar).
- Los mangos también son autoclavables hasta 134 °C (a una sobrepresión de 3 bar). Antes de la esterilización deben desmontarse de los mangos las pilas, el contenedor de pilas y los acumuladores.

- Les spatules peuvent être stérilisés dans l'autoclave jusqu'à 134 °C (à 3 bar de surpression).
- Les manches peuvent également être stérilisés dans l'auto-clave jusqu'à 134 °C (à 3 bar de surpression). Les piles, les containers à piles et les accumulateurs doivent être enlevés des manches avant la stérilisation.

- Le lame sono sterilizzabili in autoclave fino a 134 °C (con una sovrapressione di 3 bar).
- Anche i manici sono sterilizzabili in autoclave fino a 134 °C (con una sovrapressione di 3 bar). Le batterie, i contenitori per batterie e gli accumulatori devono essere tolti prima della sterilizzazione.

Instrumentenpflegeöl
Instrument maintenance oil
Aceite para el mantenimiento de instrumentos
Huile d'entretien des instruments
Olio per strumenti

Das MEDICON-Sprühöl eignet sich vorzüglich für Instrumente mit besonders unzugänglichen Bewegungsmechanismen. Anwendung vor der Sterilisation.
Gelenke und schwergängige Schlüsse gleiten nach einer Behandlung mit MEDICON-Sprühöl wieder reibungslos. Die gute Schmierwirkung garantiert die optimale Funktion beweglicher Teile und bleibt auch nach der Sterilisation erhalten.

MEDICON spray oil is an excellent lubricant also for instruments with inaccessible moving mechanisms. To be used before sterilization.
Joints and hard moving locks will work perfectly again after being treated with MEDICON spray oil. The good lubrication effect guarantees an optimal functioning of the moving parts and does not evaporate during sterilization.

El spray de aceite de MEDICON presta servicios excelentes para instrumentos con articulaciones de acceso difícil. Debe utilizarse siempre antes de la esterilización.
Después de haber sido tratados con el spray de MEDICON, las articulaciones y los cierres bloqueados vuelven a funcionar suavemente y sin problemas. El perfecto efecto de engrase garantiza la óptima funcionabilidad de las partes móviles y se conserva hasta despúes de la esterilización.

Le spray huileux MEDICON se prête par excellence pour des instruments à mécanisme de mouvement difficilement accessible. A utiliser avant la stérilisation.
Des articulations et des fermetures difficiles refonctionneront parfaitement après traitement avec le spray MEDICON. L'effet lubrifiant garantit le fonctionnement impeccable des éléments mobiles et se conservera aussi après la stérilisation.

L'olio spray MEDICON si presta ottimamente per strumenti con articolazioni difficilmente accessibili. Utilizzarlo sempre prima della sterilizzazione.
Dopo essere stati trattati con olio spray MEDICON, articolazioni e movimenti bloccati ritornano a funzionare senza attrito. Il suo eccellente potere lubrificante garantisce il funzionamento perfetto delle parti mobili e si prolunga anche dopo la sterilizzazione.

Confezione da 12 pezzi

Zum Ölen von Schlüssen, Sperren, Gelenken usw., Anwendung vor der Sterilisation. Auf medizinischer Weißölbasis, silikonfrei, physiologisch unbedenklich.
Bei den Rohstoffen werden ausschließlich hochreine, keimfreie Pharmaqualitäten verwendet, z.B. nach DAB 10, USP 22 und weiteren entsprechenden Standards. Das Sterilisationsergebnis wird nicht beeinflusst, da ein Zusatz die Durchdringung des Ölfilms durch den Sterilisationsdampf gewährleistet.

For box locks, ratchets, joints etc., to be used before sterilization. On the basis of medical oil, silicone-free, physiologically safe.
Only pure, germ-free pharma qualities are used for the raw material, e.g. acc. to DAB 10, USP 22 and other respective standards. The result of the sterilization is not impaired since an additive assures the penetration of the oil film by the sterilization steam.

Para engrasar los cierres, las cremalleras y las articulaciones, etc. utilizar siempre antes de la esterilización.
A base de aceite blanco medicinal, libre de silicona, sin objeción fisiológica.
En la materia prima se utiliza solamente calidad farmaceutica absolutamente pura y libre de gérmenes, por ejemplo según DAB 10, USP 22 y otros estándardes respectivos. El resultado de la esterilización no es influido, ya que por un aditivo especial se garantiza la penetración de la película del aceite por el vapor de esterilización.

Pour huiler des fermetures, des crémaillères, des joints etc., à utiliser avant la stérilisation. Sur la base d'huile médicale, sans silicone, physiologiquement sans risque.
Les matières premières utilisées sont de qualité pharmaceutique absolument pure, sans germes, p.ex. selon DAB 10, USP 22 et d'autres standards respectifs. Le résultat de stérilisation n'est pas influencé, puisqu'un additif assure la pénétration du film d'huile par la vapeur de stérilisation.

Per oliare le cerniere, le cremagliere e le articolazioni ecc., utilizzarlo sempre prima della sterilizzazione.
Secondo la base d'olio medicinale, senza silicone, senza pericolo fisiologico.
La materia prima usata è di qualità farmaceutica e libera da germe, p.es. secondo DAB 10, USP 22 ed ulteriori standard rispettivi. Il risultato della sterilizzazione non viene influenzata, in quanto un additivo speciale garantisce la penetrazione della pellicola dell'olio da parte del vapore della sterilizzazione.

SPINAL SPREADING SYSTEM

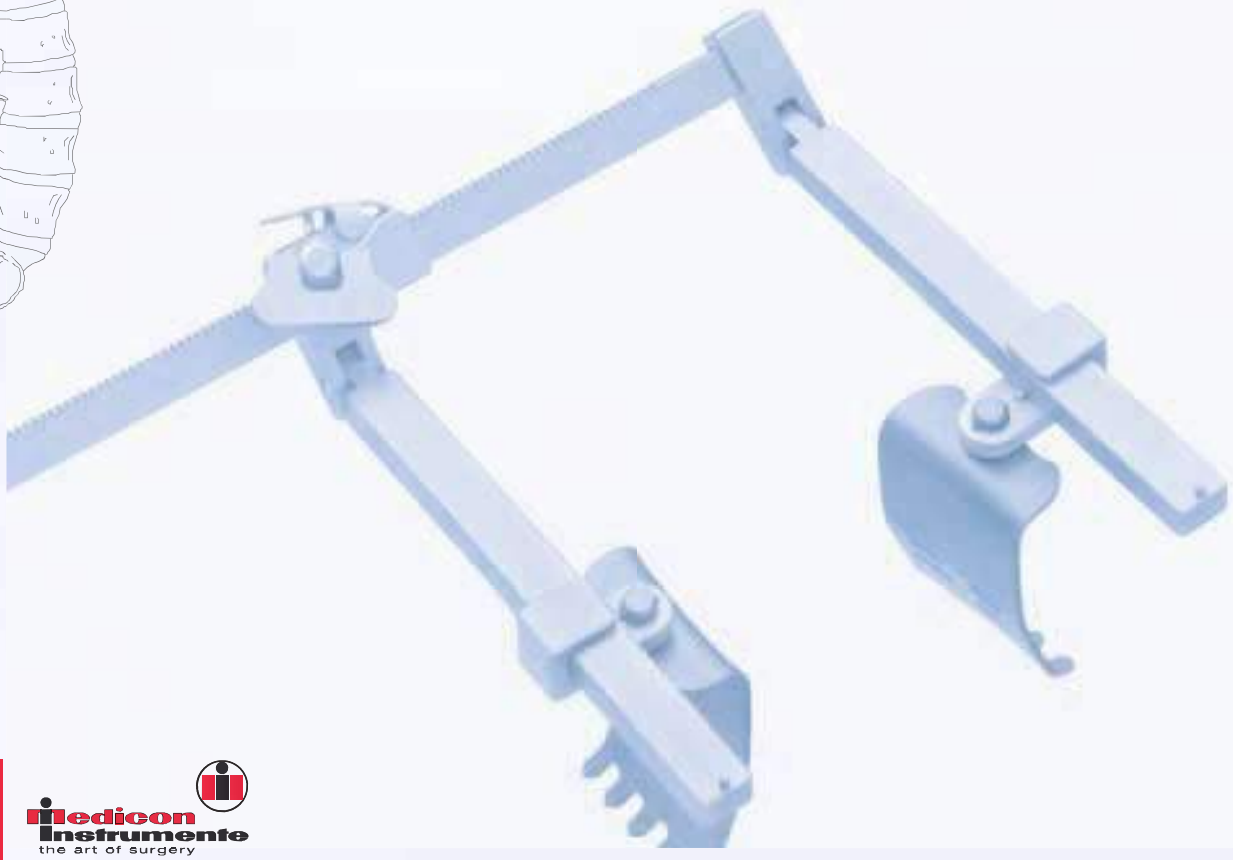

Geeignet für alle Wirbelsäulenzugänge

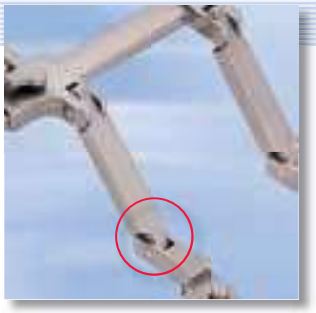

Suitable for all accesses to the spinal column

Indicado para todos los accesos a la columna vertebral

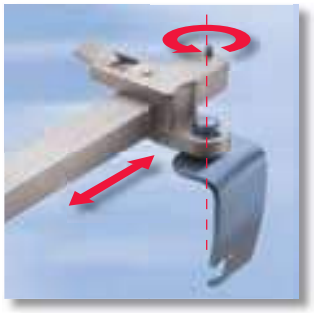

Indiqué pour tous les abords à la colonne vertébrale

Indicato per tutti gli accessi alla colonna vertebrale

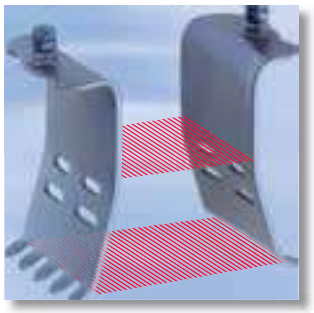

- Hohe Variabilität durch auswechselbare Valven und zusätzliches Doppelgelenk
- Zusätzliche Valven an den Spreizerarmen einsetzbar
- Vergrößerung des Freiraumes im Operationsfeld durch abgewinkelte Valven
- Geringe Schattenbildung bei der Röntgenuntersuchung
- Variabilität für ein- und beidseitige Zugänge an der Lamina
- Hohe Festigkeit durch Titan

- High variability due to interexchangeable blades and additional double joint
- Additional blades can be applicated to the spreader arms
- Enlargement of free space in the operating area due to curved blades
- Reduced shadowing on X-ray examination
- Variability for unilateral and bilateral accesses to the lamina
- High resistance due to titanium

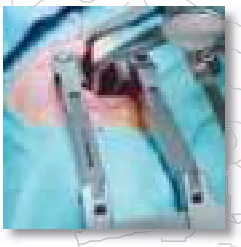

- Gran variabilidad mediante valvas intercambiables y articulación doble adicional
- Valvas adicionales pueden ser aplicadas en los brazos del separador
- Aumento del espacio libre en el campo operatorio gracias a las válvas anguladas
- Minima formación de sombras en examenes de radiografía
- Variabilidad para accesos unilaterales y bilaterales a la lámina
- Gran solidez gracias al titanio

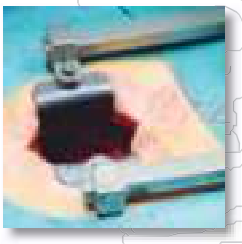

- Flexibilité élevée grâce aux valves interchangeables et au joint double supplémentaire
- Possibilité de mise en place de valves supplémentaires sur les bras de l'écarteur
- Augmentation de l'espace libre dans le champ opératoire grâce aux valves angulaires
- Formation minimale d'ombres pendant les radiographies
- Variabilité pour l'abord mono ou bilatéral à la membrane
- Titane à résistance élevée

- Elevata flessibilità grazie a valve intercambiabile ed articolazione doppia supplementare
- Possibilità di inserimento di valve supplementari sui bracci del divaricatore
- Aumento dello spazio libero nel campo operatorio grazie a valve angolate
- Scarsa formazione di ombre durante le radiografie
- Variabilità per accessi mono o bilaterali alla membrana
- Titanio a elevata resistenza

für ein HF-Kabel
for one HF cable
para un cable de alta frecuencia
pour un câble à haute fréquence
per un cavo ad alta frequenza

- Einfaches Handling in der Aufbereitung und im OP
- Zeitaufwendiges Entwirren der Kabel entfällt
- Knickschutz
- Passend für Siebkörbe ab ½-Container
- Funktionsprüfung problemlos möglich
- Sicherheitsverschluss dient auch als Haltegriff
- Verwendbar für alle HF-Kabel

- Easy handling during cleaning, sterile preparation and operating
- No more time consuming untangling of cables
- Buckling resistance
- Suitable for wire baskets starting from ½ container
- Easy function control
- Safety lock may serve as handle
- Suitable for all HF cables

- Manejo fácil durante limpieza, preparación estéril y operación
- Se ahorra tiempo ya que no es necesario desenredar cables
- Protección contra pliegues de cables
- Aptos para bandejas a partir de ½ contenedor
- Control de funcionamiento fácil
- Cierre de seguridad sirve también de mango
- Utilizable para todos cables de alta frecuencia

- Nettoyage et préparation stéril facile, et aussi maniement amélioré pendant opérations
- Dénouer n'est plus nécessaire = maniement plus vite
- Protection contre plis de câbles
- Approprié pour paniers a partir de ½ container
- Contrôle de fonction facile
- Fermoir de sécurité utilisable comme manche
- Approprié pour tous types de câbles à haute fréquence

- Facilmente manegerole durante la pulizia, la preperazione sterile e l'operazione
- Si risparmia tempo perché si evita di districare i fili
- Protezione contro pieghe dei fili
- Adatto per cestelli da ½ contenitore
- Controllo di funzionamento facile
- Chiusura di sicurezza utilizzabile come manico
- Adatto per tutti i cavi ad alta frequenza

Siebsichtung
Set Checking
Servicio de revisión del instrumental quirúrgico
Contrôle des boîtes
Verifica dei set chirurgici

Für Krankenhäuser bietet die Medicon eG den Service einer Siebsichtung an. Ziel dieser Dienstleistung ist die übersichtliche Aufbereitung und Bereitstellung chirurgischer Instrumentensiebe nach ökonomischen und logistischen Kennwerten.
Leistungsumfang der Siebsichtung:

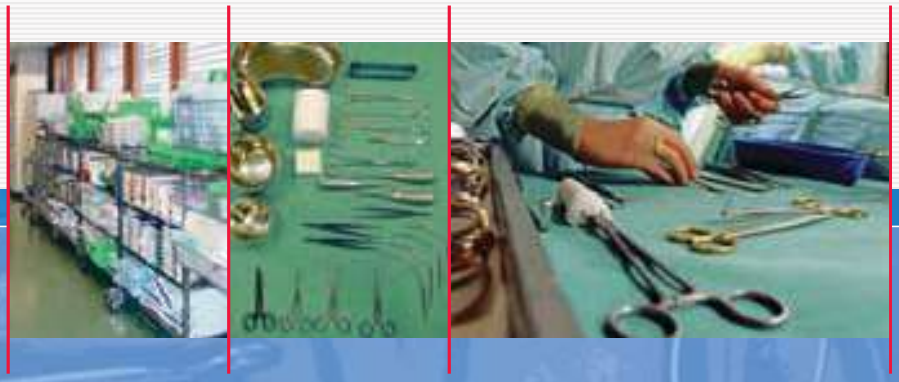

- Erfassung des gesamten Instrumentariums nach Quantität und Wert
- Standardisierung der Siebe respektive Ergänzung fehlender Instrumente
- Austausch oder Reparatur defekter Instrumente
- Erstellung von Übersichts- und Packlisten

Medicon eG offers a set checking service for hospitals. The aim of this service is to provide clearly arranged instrument sets, which are economically and logistically efficient. Performance of the set checking service:

- Record of all instruments according to quantity and value
- Standardization of the sets and completion of missing instruments respectively
- Exchange or repair of defective instruments
- Compilation of summary or packing lists

Medicon eG ofrece para hospitales un servicio de revisión del instrumental quirúrgico. El propósito de este servicio es de proveer al cliente juegos instrumentales claramente estructurados como económicamente y logísticamente optimizados.
Contenido del servicio:

- Registro de todos los instrumentos según cantidad y valor
- Estandarizar los set instrumentales y completar los instrumentos faltantes
- Cambio o reparación de instrumentos defectos
- Elaboración de listas de contenido y empaque

f surgery

Medicon eG offre aux hôpitaux le service contrôle des boîtes. Le but de ce service est la disposition et le traitement organisé des boîtes d'instruments chirurgicaux selon les mesures économiques et logistiques connues.

Le contrôle des boîtes contient:

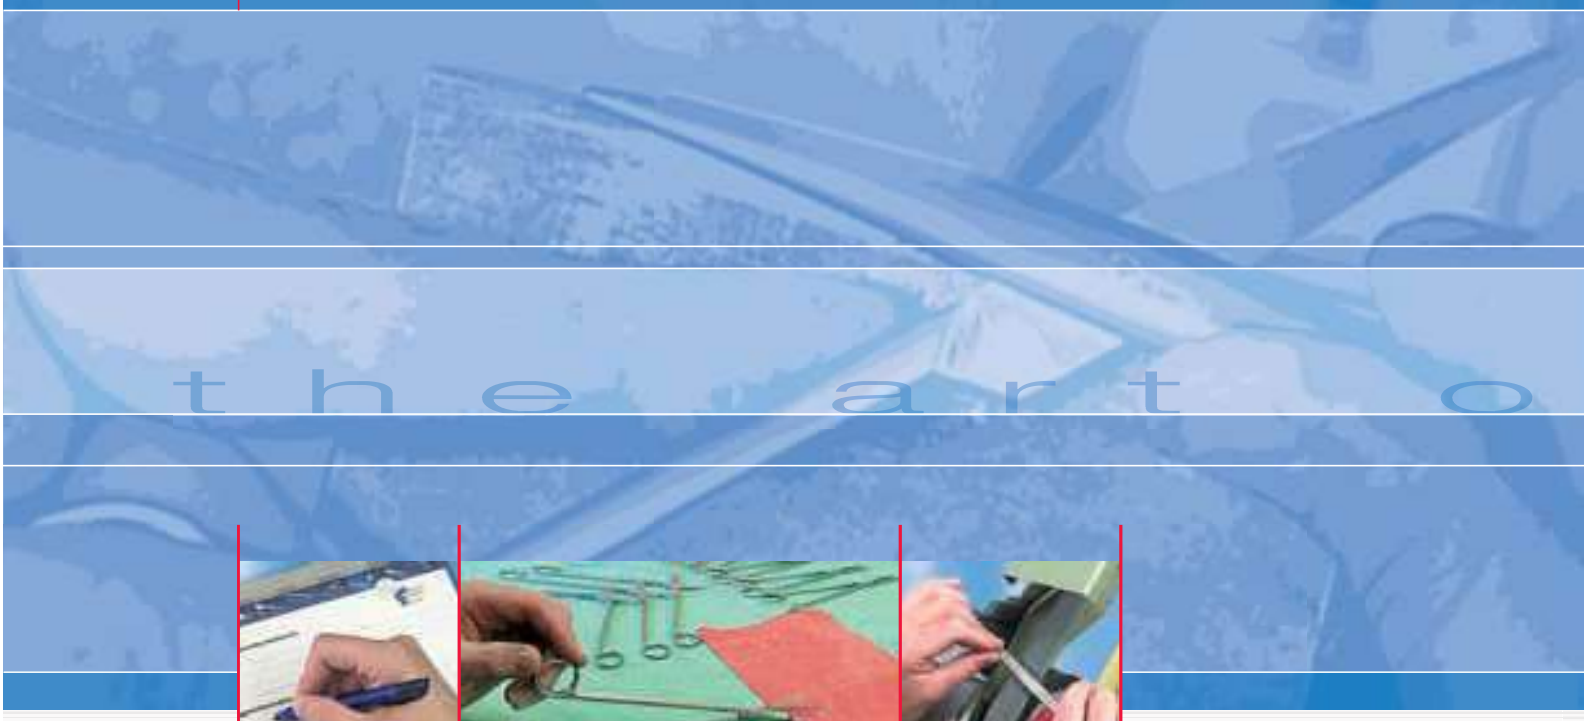

- Enregistrement et chiffrage de l'instrumentation complète selon quantité et valeur
- Standardisation des boîtes ou bien complément d'instruments manquants
- Echange ou réparation des instruments défectueux
- Etablissement des listes de contenu respectivement d'empaquetage

La Medicon eG offre il servizio per la verifica dei set chirurgici per gli ospedali. Lo scopo di questo servizio è la chiara preparazione e la messa a disposizione di set ottimizzati dal punto di vista economico e logistico.

Interventi nella verifica dei set chirurgici:

- Raccolta dello strumentario secondo quantità e valore
- Standardizzazione dei set attraverso l'aggiunta degli strumenti mancanti
- Sostituzione o riparazione degli strumenti difettosi
- Stesura di un elenco del contenuto e dell'imballaggio

Reparatur-Service
Repair Service
Servicio de reparación
Service de réparation
Servizio riparazioni

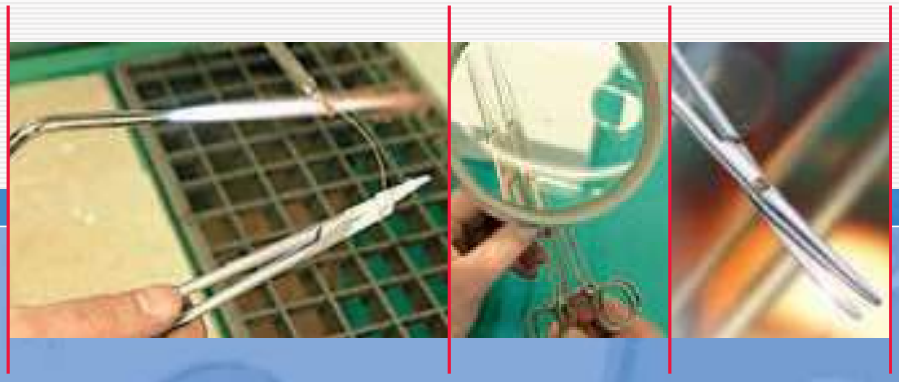

Spezialisten des MRS (Medicon-Reparatur-Service) prüfen Ihr Instrumentarium und beurteilen die Wirtschaftlichkeit anstehender Reparaturen. In unseren Qualitätswerkstätten reparieren erfahrene Chirurgiemechaniker Instrumente aus eigener Fertigung sowie auch Fremdfabrikate. Nach einer gründlichen Schlusskontrolle wird jede Reparatur mit einer Codierung markiert. Unsere Reparaturbox mit Begleitschein erleichtert Ihnen das „handling". Detaillierte Leistungen und Preise entnehmen Sie bitte unserer aktuellen Reparatur-Preisliste.

Experts of the MRS (Medicon Repair Service) check the instrument sets and evaluate possible repairs regarding cost effectiveness. In our workshops experienced instrument specialists repair Medicon instruments as well as all other brands. After a thorough final inspection every repaired instrument is marked with a special code. Our repair box and advice note facilitates the handling. For detailed information on service and prices please consult our current repair price list.

Especialistas del servicio MRS (Medicon Repair Service) examinan sus instrumentos y valoran eventuales reparaciones relativo a aspectos económicos. En nuestros talleres de calidad mecánicos quirúrgicos entendidos reparan productos de nuestra fabricación como también de fabricación ajena. Después de una cuidadosa inspección final se marca cada instrumento reparado con un código especial. Nuestra caja de reparación va acompañada con una documentación para facilitar el manejo. Para informaciones detalladas y tarifas por favor vea nuestra lista actual de precios de reparación.

MRS Medicon Reparatur Service

Les spécialistes du MRS (Medicon Repair Service) examinent votre instrumentation et jugent les réparations éventuelles selon des aspects économiques. Dans nos ateliers qualifiés, des experts qualifiés et compétents réparent les instruments soit de propre fabrication, soit de fabrication concurrente. Suite à un contrôle final profond chaque réparation reçoit un marquage par code. Notre boîte de réparation avec bordereau d'accompagnement vous facilite le maniement. Pour les services détaillés ainsi que les tarifs, veuillez vous referez sur notre liste actuelle de prix de réparation.

Gli specialisti del Servizio Riparazioni della MRS (Medicon Repair Service) controllano lo strumentario e valutano l'entità delle riparazioni da affrontare. Nelle nostre officine di qualità, meccanici chirurgici esperti riparano non solo strumenti di produzione propria ma anche strumenti di produzione esterna. Dopo un accurato controllo finale, la riparazione viene segnalata con una marchiatura. La nostra "box" di riparazione con la bolla d'accompagnamento vi facilita l'handling. Informazioni dettagliate sui prezzi e sui servizi offerti si trovano nel nostro attuale listino prezzi delle riparazioni.

Zahlreiche Qualitätskontrollen während der Fertigung garantieren eine gleichbleibend hohe Qualität und Langlebigkeit der Medicon-Produkte. Maßgebend für die Funktions- und Werterhaltung ist jedoch die Beachtung der Pflegerichtlinien. Langjährige Erfahrungswerte zur richtigen Pflege der Instrumente mit Ratschlägen, Tipps und Hinweisen finden Sie in unserer Broschüre „Instrumenten-Aufbereitung". Siehe auch www.medicon.de (Channel/Sterilisation)

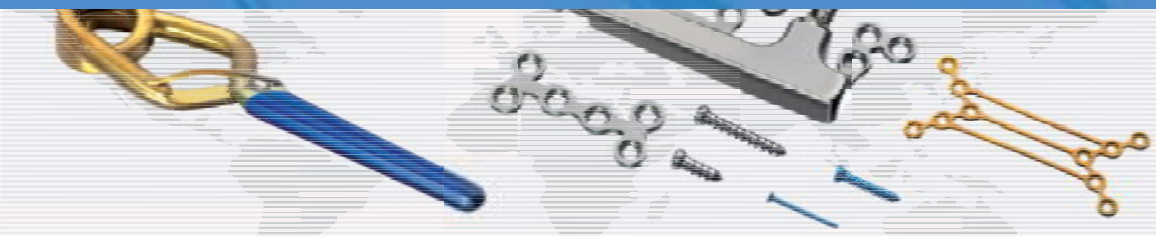

Numerous quality controls during production guarantee a constant high quality standard and durability of Medicon products. Observance of the maintenance guidelines is substantial for the conservation of function and value. Indications and advices regarding a correct maintenance, which are based on years of experience, can be found in our brochure "Preparation and Sterilization of Surgical Instruments" or see www.medicon.de (Channel/Sterilization)

Numerosos controles de calidad durante la producción garantizan una constante y alta calidad como también durabilidad de los productos Medicon. La observancia de las instrucciones de mantenimiento es determinante para la conservación del funcionamiento y del valor. Consejos e indicaciones en cuanto al mantenimiento correcto, basado en la experiencia de varios años, se encuentran en nuestro folleto "Preparación y esterilización de instrumentos quirúrgicos", o vea www.medicon.de (Channel/Sterilization)

Des nombreux contrôles de qualité pendant la fabrication garantissent une qualité et durée de vie élevée et constante des produits Medicon. Cependant, l'observation des directives de soin est déterminant pour le maintien de la fonction et de la valeur. Des conseils, recommandations et précisions se basant sur une longue expérience concernant le soin adéquat d'instrumentation figurent dans notre brochure "Traitement des instruments chirurgicaux". Voyez également www.medicon.de (Channel/Sterilization)

Numerosi controlli di qualità durante la produzione garantiscono un'alta qualità costante ed una lunga durata dei prodotti Medicon. L'osservanza delle istruzioni per il trattamento degli strumenti è determinante per la conservazione della loro funzionalità e del loro valore. Consigli ed indicazioni per un trattamento corretto degli strumenti, basati su un'esperienza pluriennale, sono raccolti nel nostro opuscolo "Preparazione e sterilizzazione dello strumentario chirurgico". Die stetige Weiterentwicklung neuer Operations-Techniken und die damit verbundene Anpassung innovativer Produkte erfordern die Weitergabe spezifischer Kenntnisse. Im direkten Kontakt zu unseren Kunden und Anwendern vermitteln wir wichtige Informationen zu aktuellen Themen in Seminaren, Meetings und Workshops.

Continuous development of new surgical techniques and consequently the adaptation of innovative products require the transmission of specific knowledge. In direct contact we convey important information on actual subjects to our customers and users in seminars, meetings and workshops.

El desarrollo continuo de nuevas técnicas quirúrgicas y la resultante adaptación de productos innovadores requieren la transmisión de conocimientos específicos. En contacto directo con nuestros clientes y usuarios nosotros les transmitimos informaciones importantes sobre temas actuales en seminarios, reuniones y talleres.

Le développement incessant de nouvelles techniques d'opération et par conséquent l'adaptation de produits innovateurs exigent la transmission du savoir-faire spécifique. En contact direct avec nos clients et utilisateurs, nous transmettons des informations importantes sur des sujets actuels lors de séminaires, réunions et des ateliers.

Il continuo sviluppo di nuove tecniche operatorie ed il conseguente adeguamento dei prodotti innovativi richiede la trasmissione di conoscenze specifiche. Attraverso lo stretto contatto con i nostri clienti e con l'utente finale, siamo in grado di trasmettere informazioni molto importanti relative a tematiche attuali durante seminari, meetings e workshops.
